REACHING FOR SAFETY EXCELLENCE

Daily Safety Focus

SAFE JOB SET UP

Prior to starting any job ask yourself the following questions:

- Have you identified and mitigated all hazards?
- Are you wearing all of your PPE?
- Do you have the right tools for the task?
- Is your FLRA specific and detailed?
- Are you prepared to complete this task the safest way?

In order to complete a job without incident or injury we must **choose** to work safe. The questions above encourage to you stop and think, don't simply go through the motions of doing your job. By making safety a part of your initial job set up you can finish the day injury free.

LEADER'S QUESTION TO WORKERS:

Are you set up for safety?
