

2015 OLYMPUS

REACHING FOR SAFETY EXCELLENCE

Daily Safety Focus

PPE

PPE is your last line of defense, it will protect you from injury if utilized properly. Before starting any task ask yourself the following questions:

- Do I have all of my PPE?
- Does it fit?
- Is it in good condition?
- Am I wearing it properly?
- Do I need to upgrade my PPE?
- Does everyone on my team have all of their PPE?

Intervene if you see someone on your team without, or not properly utilizing their PPE. Are everyone's face shields down, does everyone have their ear plugs in? Look out for each other, don't leave the worker beside you unprotected from unidentified hazards.

LEADER'S QUESTION TO WORKERS:

If you are not wearing your PPE what will happen?
