

# the Ursa Major Facts

**May 28 Night Shift  
May 29 Day Shift  
DAY 34**

**SAFETY FOCUS: DROPPED OBJECTS**

Before commencing any task it is important to consider the potential for dropped objects:

- Consider the environment where you will perform the task and any other activities that may be going on around you
- Review and update your FLRA as appropriate
- Visually inspect the work area for loose items and debris

When working at height, the potential for dropped objects is greater and continuous vigilance is critical:

- Set up barriers beneath the work area and ensure the extent of the barrier zone is appropriate to the work height, with due consideration of the potential deflection or 'bounce' of a dropped object.
- Check that grating is secure and use fire blanket where there is the potential for small items to fall through grating
- Where scaffolding platform is employed, ensure toe-boards are installed
- Remain vigilant of other activities going on around you and below you

Where the task involves loading or lifting:

- Ensure the lifting equipment is appropriate for the task and in good working order
- Ensure containerized loads are properly stacked, stored and secured
- Check tubulars for items left inside
- Check tops of containers for loose items and debris

On completion of the task, it is essential to leave the worksite safe and tidy:

- Clear all tools, scrap, debris and loose items for the worksite
- Remove all temporary barriers and signage
- Note and communicate any information for passover

**SAFETY HEALTH & ENVIRONMENT**

May 28 @ 6:00	Previous 24 Hours	Total to Date	First Aid	Record. Injury
<b>URSA MAJOR</b>				
# Med Center Visits	4	49

**LEADER'S QUESTION TO WORKERS:**

**What can you personally do to eliminate DROPS?**

**FOREMEN DISCUSSION:** Are there unidentified/unrecognized hazards that could drop? If there are, what mitigations/controls could be implemented?

**VOICE Card Intervention winner Don Tucker with B&W, receiving his intervention gift from Syncrude's Utilities Safety Lead Joe Larson.**
