DAY 38**

the Ursa Major Facts

SAFETY FOCUS: WHAT IS HOUSEKEEPING?

When we think of 'housekeeping' we tend to think of the common phrase: "A place for everything and everything in its place."

Good housekeeping means having no unnecessary items about and keeping all necessary items properly stored.

Areas where our housekeeping needs improvement:

- Donning and Doffing stations
- Proper storage of PPE: APR equipment, fall protection harnesses
- Disposal of soiled rags in proper receptacles
- Placement of items/material on fire blanket
- Proper disposal of metal objects (welding rods etc.)
